

We agree. You're the experts.

That's why we developed the **NEW Driflex™ Cold Water Rescue Suit.**

Clearly the logical choice for Ice Rescue Professionals everywhere.

We listened to the Ice Rescue Professionals and developed features not found on any other suit. Our new "Burpgrip™" handle makes it easier to release the air in the suit, and the "Invisalve™" allows for continuous purging of the air ensuring that you get the maximum performance of the suit while being able to focus solely on the rescue.

STEARNS® I596 Cold
Water Rescue Suit

This suit will meet the demands of fire department and ice rescue personnel nationwide.
